imagiQ3™ Legacy surgical table accessories offer a wide range of solutions for procedures such as vascular, electrophysiology, pain management, spine and ERCP.

How to navigate through our catalogue?

All stored into one document for easy reference, imagiQ3™ Legacy accessories have been grouped and presented individually as illustrated below.

CATEGORY OF THE ITEM

Product name or specific characteristic(s)

Description of the item: use, characteristics, quick mounting instructions, material, etc.

- **Included:** Parts and numbers related to the item
- **Required:** Other accessories needed to mount or to use the item
- **Optional:** Alternative or suggestion of combination of items for a smoother workflow or optimal use

Illustration of the item. May not be an exact representation of the product.

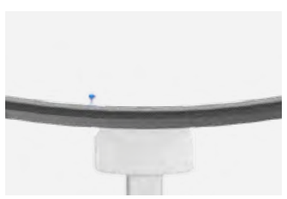
Order information

EU: XX-XX-XXXX
US: XX-XX-XXXX

Part number* of the item for your order. Part number might be different depending on the region. Most regions outside the USA use the EU version. Products may not be available in all regions. Please contact your STILLE-representative for more information on market availability.

* To search by part number, simply refer to the index at the end of the catalogue.

TABLE CONFIGURATION



imagiQ3™ Legacy standard configuration

A mobile and highly radiolucent operating table with the patented True Free Float™. This Low-Dose Enabler™ is designed to optimize C-arm and O-arm use in helping to reduce scattered radiation and enhance image quality.

Order information

DETACHABLE SIDE RAILS

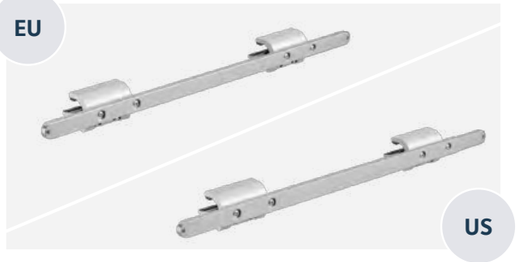
Side rail (70.0cm/27.5”, single)

The most chosen detachable side rail for accessory mounting.
Not compatible with the 3D headrest.

Included:
One side rail

Required:
-

Optional:
-



Order information

EU: 535-1729
US: 535-1723

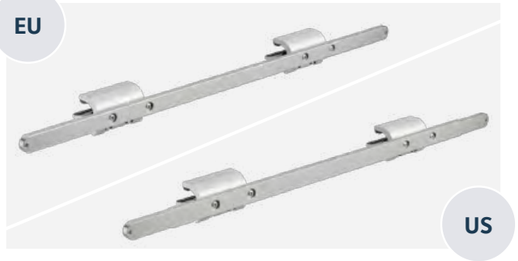
Side rail (80.5cm/31.7“, single)

Side rail enabling full table length side rail for imagiQ3 Legacy. Order two for mounting the fixed headrest.
Not compatible with the 3D headrest and the adjustable headrest.

Included:
One side rail

Required:
-

Optional:
-



Order information

EU: 535-1721
US: 535-1720

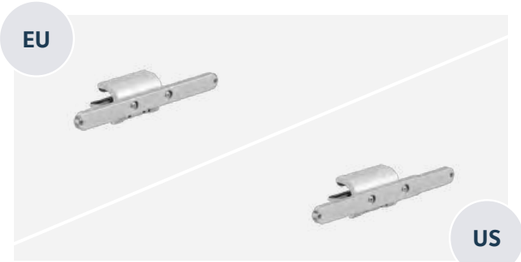
Side rail short (28.5cm/11.2”, single)

1-clamp detachable side rail to mount small accessories (max. 5kg: like the pan handle or infusion stand). Can be mounted on the free end of the imagiQ3 Legacy.
Not compatible with a retractor system.

Included:
One side rail

Required:
-

Optional:
-



Order information

EU: 535-1725
US: 535-1724

ANESTHESIA ACCESSORIES

Infusion stand fixed

I.V. pole with three hooks with side rail fixation. Height is adjustable. Made in stainless steel and aluminum.

Included:
One I.V. pole with a non-detachable clamp

Required:
Fixed or detachable side rail

Optional:
-

Order information

EU: 514-100401
US: 514-100401-US

Anesthesia frame

Enables hanging drapes or equal material to differentiate the sterile zone from the non-sterile zone. Made in stainless steel and aluminum with polyurethane coating.

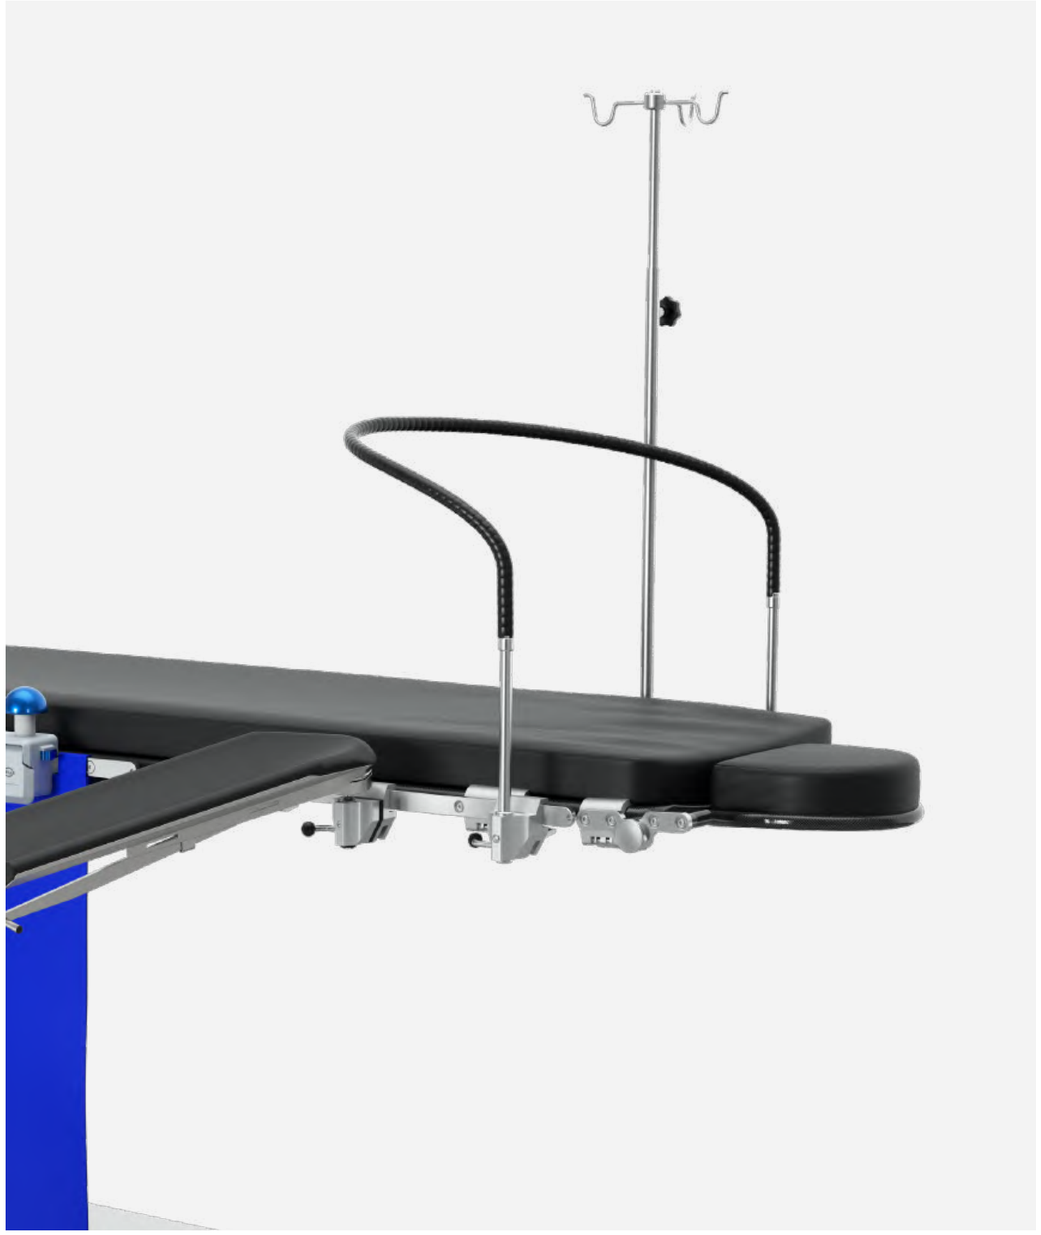
Included:
One flexible frame with two fixed clamps

Required:
Fixed or detachable side rails

Optional:
-

Order information

EU: 514-100311
US: 514-100311-US



imagiQ3 Legacy table with two 70 cm / 27.6" side rails, infusion stand, anesthesia frame, adjustable armboard, adjustable headrest and radiation shield loop.

** Products may not be available in all regions.*
Please contact your STILLE-representative for more information on market availability.

ARM, LEG & FOOT SUPPORTS

Armboard, adjustable

The armboard is designed to support a patient's arm, ideal for IV. It is very easy to adjust in any desired position with one hand. This armboard is not radiolucent.

Included:
One armboard with a non-detachable clamp and an antistatic mattress

Required:
Fixed or 2-clamp detachable side rail

Optional:
-

Order information

EU: 514-50-3SR025
US: 514-50-3SR027

Fistula armboard

A non-adjustable radiolucent armboard for use in supporting the arm of a patient during imaging to provide an unobstructed image. The board is 81.1cm long x 35.0 cm wide (31.9" x 13.8").

Included:
One radiolucent board with mattress and two clamps

Required:
-

Optional:
-

Order information

EU: 535-1730
US: 535-1730

Basic armboard (US)

Radiolucent armboard with a simple design. Only available in the USA.

Included:
One board, clamp and mattress

Required:
Fixed or 2-clamp detachable side rail

Optional:
-

Order information

EU: Not available
US: 512-5000

imagiQ3 Legacy table with 70 cm / 27.6" side rail, adjustable armboard and radiation shield loop*.

** Products may not be available in all regions.*
Please contact your STILLE-representative for more information on market availability.

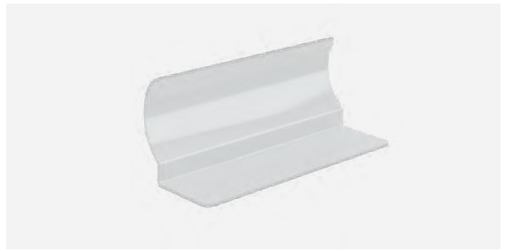
Arm and leg guard, curved

Arm and leg guard intended to support and keep the patient's arm and leg on the OR-table during surgery and transport. The curve bends outward 5.3 cm (i.e. orthogonal distance between the turning point of the curve and the mattress).

Included:
One piece of curved guard

Required:
-

Optional:
Cover for Arm & leg guard curved
EU/US: 514-100553



Order information

EU: 514-100552
US: 514-100552

Arm and leg guard, straight

Arm and leg guard intended to support and keep the patient's arm and leg on the OR-table during surgery and transport. The guard slides under the table pad.

Included:
One piece of guard

Required:
-

Optional:
Cover for Arm & leg guard straight
EU/US: 514-100555

Order information

EU: 514-100554
US: 514-100554

Leg holder with clamp (pair)

Leg supports intended for support and positioning of patient lower legs during surgery.

Included:
Two leg rests with clamps and mattresses

Required:
Fixed or 2-clamp detachable side rail

Optional:
-

Order information

EU: 514-50-3SR032
US: 514-50-3SR033

imagiQ3 Legacy table with 3D headrest, curved arm and leg guard and radiation shield loop (grey version)*.

** Products may not be available in all regions.*
Please contact your STILLE-representative for more information on market availability.

Foot support (pair)

The foot support is designed to provide stability for patients, especially during anti-Trendelenburg positioning. It can be adjusted in height and along the operating table to accommodate patients of different sizes.

Included:
Two supports, mattresses and clamps

Required:
Fixed or two 2-clamp detachable side rails

Optional:
-

Order information

EU: 514-100296
US: 514-100296

Tibia support (excluding clamp)

The tibia support is designed to support the knee or the foot of a patient during knee or leg surgery. Made in stainless steel and includes an antistatic cushion. Cushion diameter is 13.5 cm / 5.3", length 27 cm / 10.6".

Included:
Metal pole, mattress. The clamp is not included.

Required:
Fixed or 2-clamp detachable side rail
+ one separate clamp (see page 19)

Optional:
-

Order information

EU: 514-100367-K
US: 514-100367-K

Radial clamp

A robust clamp to mount accessories like the tibia support.

Order information

EU: 514-100305
US: 514-100305-US

Included:
One stainless steel clamp

Required:
-

Optional:
Tibia or lateral support (page 18 or page 22)

Radial clamp MIX

A robust clamp to mount accessories like the tibia support. Has easy side rail attachment.

Order information

EU: 514-100307
US: 514-100307-US

Included:
One stainless steel clamp

Required:
-

Optional:
Tibia or lateral support (page 18 or page 22)

Accessory clamp

A simple clamp to mount accessories like the tibia support.

Order information

EU: 514-100301
US: 514-100301-US

Included:
One aluminium clamp

Required:
-

Optional:
Tibia or lateral support (page 18 or page 22)

CONTROL DEVICE

Pan handle (additional pan handle)

Allows for panning the table from different sides. Add a second pan handle to operate alongside the standard pan handle.

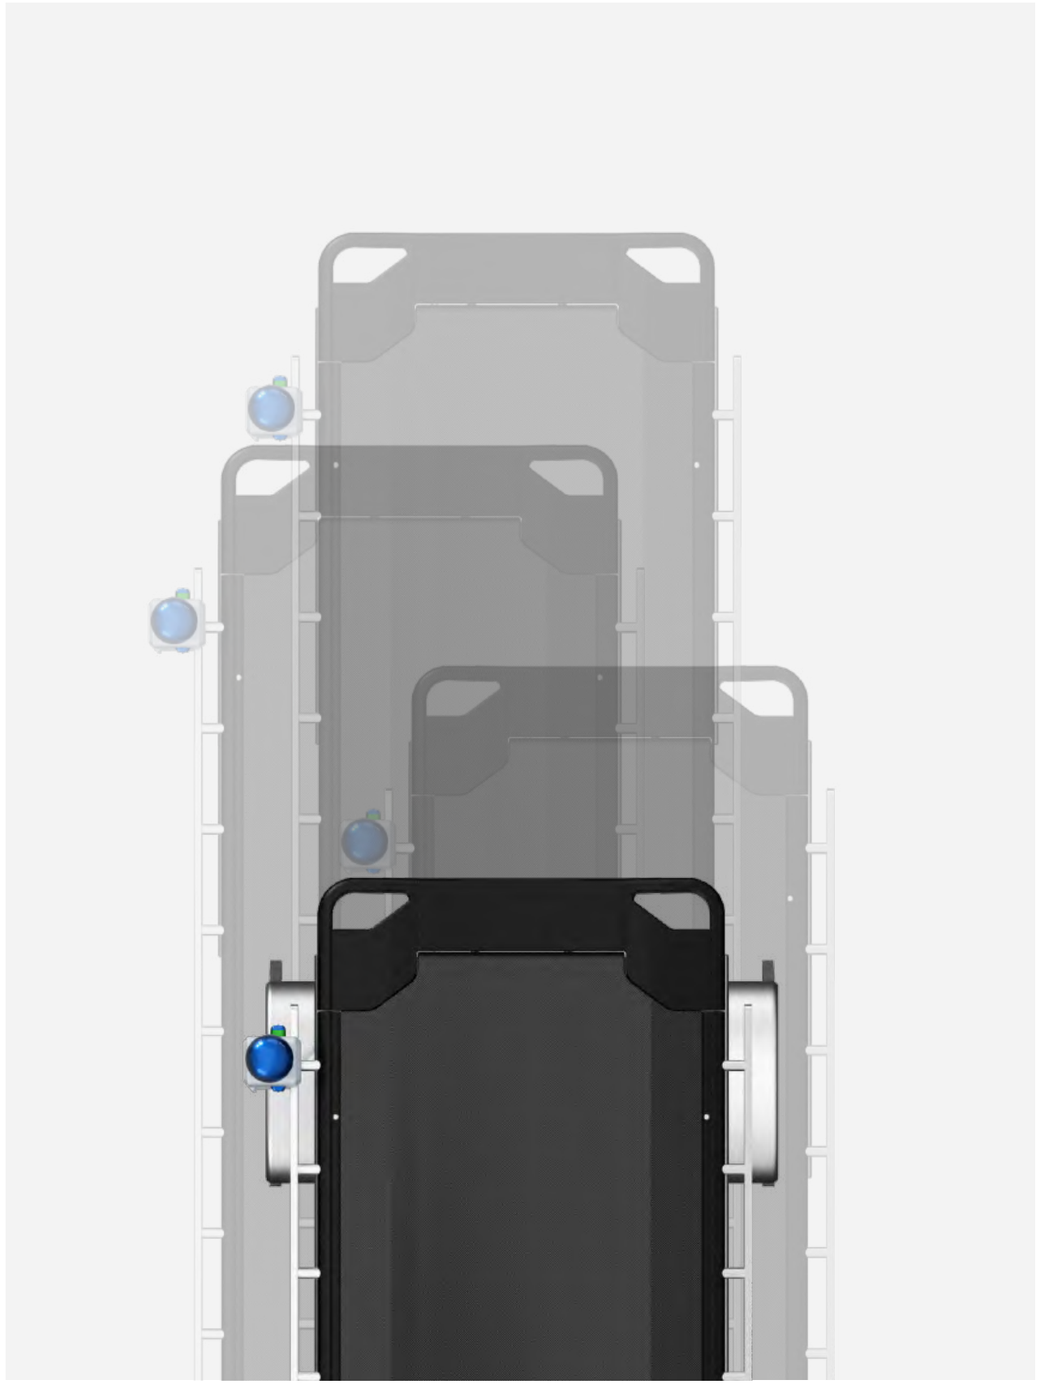
Included:
One wired pan handle

Required:
Fixed or detachable side rail

Optional:
-

Order information

EU: 555-1760
US: 555-1761



GENERAL BODY SUPPORTS & BARRIERS

Lateral support complete w clamp

The wide lateral support can be adjusted in height, longitudinal and lateral, depending on how the patient shall be positioned. Dimensions of the curved cushion 20x20 cm / 7.9" x 7.9".

Included:
One metal pole, clamp, curved mattress

Required:
Fixed or 2-clamp detachable side rail

Optional:
-

Order information

EU: 514-50-3SR028
US: 514-50-3SR030

Lateral support, adjustable excl. clamp

Lateral support with narrow pads, one plane and one curved, for positioning a patient on the table. Rotatable in different horizontal angles. The length of post is 35 cm / 13.8" and, the metal support of the pad is 17.5 × 7 cm / 6.9" x 2.8".

Included:
One rotatable support with two mattress models (one curved and one flat), no clamp

Required:
Fixed or 2-clamp detachable side rail
+ one separate clamp (see page 19)

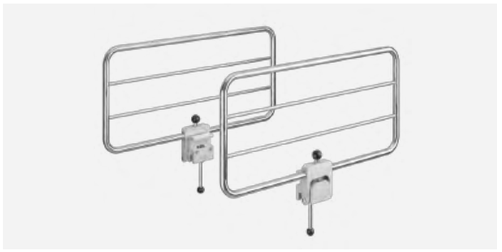
Optional:
-

Order information

EU: 514-100560
US: 514-100560

Safety side rail, foldable/ pair

Side gates designed for supporting a patient. They particularly ensure the patient's positioning and comfort during ERCP procedures. They can be easily folded down and when folded to upright position, lock automatically.



Included:
Two side gates, two non-detachable clamps

Required:
Fixed or 2-clamp detachable side rail(s)

Optional:
Cover, safety side rail single unit
EU only: 514-100530-H

Order information

EU: 514-100530
US: 514-100530-US

Leg strap (EU)

2.1m long x 8.5 cm wide (82.7" x 3.3"), with Velcro® fastening, to secure the patient.

Order information

EU: 514-100465
US: Not available

Included:
One patient restraint

Required:
-

Optional:
Side rails or safety side rails (pages 10, 23)

Deluxe maximum restraint (US)

Soft padded, 24" long x 6" wide, with adjustable strap: 24"-80". To secure the patient.

Order information

EU: Not available
US: O-RSX2

Included:
One patient restraint

Required:
-

Optional:
Side rails or safety side rails (pages 10, 23)

HEADRESTS

Headrest adjustable

Fully radiolucent headrest that extends the table length by 30 cm / 11.8". Ensures easy intubation and superior carotid visualization. Does not require side rails. Can be attached to the free end of the table only.
Not compatible with 80.5 cm / 31.7" long side rails.

Included:
One headrest with mattress and two fixed clamps

Required:
-

Optional:
-

Order information

EU: 535-1742
US: 535-1742

Headrest fixed

Radiolucent non-adjustable headrest that extends the table length by 30 cm / 11.8". Can be attached to the free end of the table only, with two detachable 80.5 cm / 31.7" side rails.

Included:
One head rest with mattress

Required:
Two 80.5 cm / 31.7" detachable side rails

Optional:
-

Order information

EU: 535-1741
US: 535-1741

3D Headrest (extension)

Carbon fiber headrest that extends the radiolucent length by 30 cm / 11.8". Useful for 3D rotation, angulation and oblique views.
Not compatible with fixed or detachable side rails with 2 clamps (≥ 70.0 cm / 27.5").

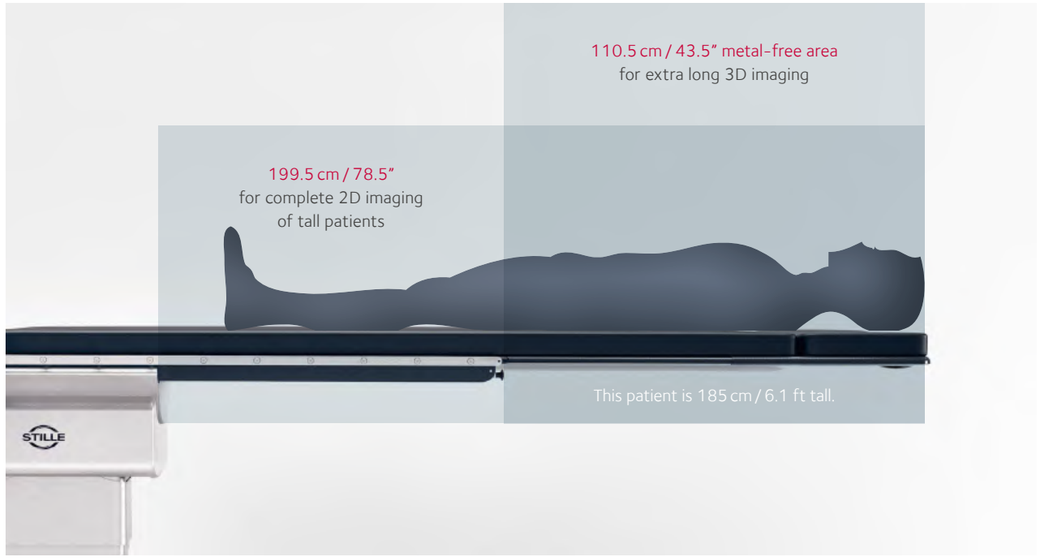
Included:
One headrest with mattress

Required:
-

Optional:
-

Order information

EU: 535-1745
US: 535-1745



imagiQ3 Legacy table with 3D headrest / extension.

** Products may not be available in all regions.*
Please contact your STILLE-representative for more information on market availability.

RADIATION PROTECTION

Radiation shield loop

X-ray protective with lead rubber (0.5 Pb) that protects against scattered radiation. Attach to side rails or directly to the tabletop with Velcro© strips.

Included:
5 protective panels that are fixed to each other

Required:
-

Optional:
Fixed or detachable side rail

Radiation shield loop blue
EU/US: 535-1773

Order information

EU: 535-1772 (grey version)
US: 535-1772 (grey version)

Radiation shield kit

X-ray protective with lead rubber (0.5 Pb) that protects against scattered radiation. Attach to the tabletop with strips of adhesive Velcro© that are placed on the tabletop. The kit can be used with or without side rails.

Included:
2 panels with cutout for the side rail clamps and 4 straight panels without cutout

Required:
-

Optional:
Radiation shield kit blue
EU/US: 535-1771

Order information

EU: 535-1770 (grey version)
US: 535-1770 (grey version)

imagiQ3 Legacy table with two 80.5 cm / 31.7" side rails, an adjustable armboard, one radiation shield kit (blue version) and two radiation shields loop (blue version).

** Products may not be available in all regions.*
Please contact your STILLE-representative for more information on market availability.

SURGICAL TABLE EXTENSIONS

Catheter tray 1,000 mm (imagiQ3)

A stainless steel plate that provides an extended workspace. The plate dimensions are 1 m x 61.5 cm / 39.4" x 24.0".

Included:
One tray 1 m / 39.4"

Required:
Fixed or two 2-clamp detachable side rails

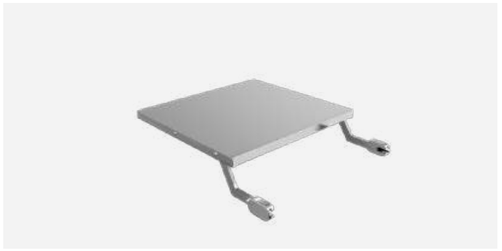
Optional:
-

Order information

EU: 555-1750
US: 555-1750

Catheter Tray 500 mm (imagiQ3)

A stainless steel plate that provides an extended workspace. The plate dimensions are 50 x 61.5 cm / 19.7" x 24.0".



Included:
One tray 50 cm / 19.7"

Required:
Fixed or two 2-clamp detachable side rails

Optional:
-

Order information

EU: 555-1751
US: 555-1751

Instrument plate with clamp

Adjustable tray to place instruments and other devices for the surgical team.

Included:
One instrument tray and clamp

Required:
Fixed or detachable side rail

Optional:
-

Order information

EU: 514-50-3SR036
US: 514-50-3SR037

Widening sections, 455mm pair EU

Two 45.5 cm / 17.9" long pieces. Widens the tabletop by 10.4 cm / 4.1" for ERCP or bariatrics.

Included:
Two sections, clamps and mattresses

Required:
Fixed or 2-clamp detachable side rail(s)

Optional:
-

Order information

EU: 514-100422
US: Not available

STILLE – Surgical perfection. For life.

STILLE is one of the oldest medical device companies in the world with over 180 years' experience. At STILLE, we develop, produce and sell surgical instruments and surgical tables to physicians worldwide.

Surgical Tables

We offer specialty tables for minimally invasive procedures, with safety and features optimized for both in- and outpatient settings.

The STILLE Medstone mobile surgical imaging tables contribute to enhance efficiency in the OR, all while representing value-priced solutions with both quality and reliability.

The STILLE imagiQ3™ surgical imaging table with its low-dose capabilities, is optimized for advanced mobile Hybrid OR settings as well as peripheral and interventional procedures.

Surgical Instruments

We have a complete offering of handcrafted, forged instrumentation for all fields of open surgery, with a special emphasis on cardiovascular surgery, reconstructive and aesthetic plastic surgery.

Our instruments feature delicate design, industry leading durability and a unique feel, which has made STILLE a well-known and highly respected supplier by surgeons throughout the world.
